Marlin Strong: Every student, every day, whatever it takes!

"Your attitude, not your aptitude, will determine your altitude."
Z. Ziglar

As we approach the end of semester one, we are reminded that it is not our aptitude, rather it is our attitude, the way we individually think, act, and interact with others, that will determine the success we experience. You may be the best teacher or student, but if you can't get along with anyone, you won't get very far. The better your attitude about life and people, the greater your chances for success, and the more effectively you will connect with others.

People want to be around a person with a positive attitude, especially during difficult times. Your ability to rise to leadership will be determined by your attitude. The contribution you make to our school will largely be determined by your attitude. This doesn't mean that all you need in life is a positive attitude. A positive attitude does not give you the ability to do everything, but it will enable you to do everything better.

A positive attitude is not a guarantee for success, but a negative one will hold you back and limit your potential. The good news is you don't need to have any special skills or training to have a positive attitude; you simply must choose to have a positive attitude. **At McNair, we "Champion students and their learning."**
